CERTIFICATE COURSE IN TERRACE GARDENING

About the course

Terrace gardening is nothing but growing of vegetables, fruits, flowers without using pesticides/ chemicals on terrace of the house. "Grow tons of Fresh Food for you and your family, While Saving Time, Space, and Money." Terrace gardening is picking up in most urban areas of the world as people find less space to grow the plants. The greatest advantage of these plants serves our own need of organic food, increases the flow of oxygen and thereby keeps you away from pollution.

Participants shall be trained extensively on the theory and practical aspects of terrace gardening of different vegetables, fruits, flowering crops and their pest and disease management and composting of kitchen waste for terrace gardening. The course includes interactive class room sessions, demonstrations, terrace garden visit, question answer sessions.
